

College of Insurance

Insurance Institute of India, Mumbai

Classroom Training Session on Liability Insurance: Focus Cyber & Crime (CT-LI) (From: 16th to 17th December, 2024)

Program Concept and Objectives:

Technology has become the indispensable oxygen for all businesses today; whether it is the service sector of the manufacturing sector. With the increased use of technology, businesses are confronted with newer challenges. Availability of the latest technology, better bandwidth, data privacy, and systems for cyber security are among the prominent challenges. Amongst these, cyber security has turned out to be one of the biggest causes of concern for individuals and businesses alike.

Adoption of technology at all levels has brought large chunks of personal and business data into the cyber space and exposed them to multiple eyeballs, hands and machines. Data breaches have become facts of life. Today the challenge of protecting data is practically on everybody. The situation makes it imperative for everyone to understand their cyber risk exposure. As partners in risk management, insurers need to understand the risk of cybercrime and the entailing exposures to liabilities in multiple contexts.

In this background, College of Insurance aims to provide insurers with a strong theoretical framework on Cybercrime and related Liabilities to bring in a higher level of professionalism in their work. The program seeks to broaden their vision, reconnect them to the fundamentals, acquaint them to the changing market practices; and in the process, broaden their professional and academic horizon by exposing them to experts in multiple related spheres.

Key Takeaways from the Program:

The program is designed to enable participants to:

- Understand the magnitude of Cyber risk
- Become aware about various kinds of Cyber attacks
- Understand the basics of Cyber security framework
- Develop critical understanding of Cyber insurance policy and clauses
- Realign themselves with the technical and risk management aspects of Cyber liability
- Understand the challenges in pricing Cyber risks
- Appreciate the challenges in claims servicing
- Evaluate the legal aspects of Cyber crime
