

College of Insurance Insurance Institute of India, Mumbai Classroom Training Session on Engineering Insurance: Focus Project Policies (CT-EI)

(From: 21st to 22th November, 2024)

Program Concept and Objectives:

Major Engineering Projects involve a lot of investment in terms of money, manpower and opportunity costs. Proper risk management and risk transfer are very important aspects for an infrastructure project. Minor instances of unprofessionalism in managing projects can have heavy untoward consequences for a business enterprise. In many cases, despite having insurance policies in place, when an unfortunate event happens, problems are faced by the business entity because the correct insurance policies and add on covers are not bought, impacting proper risk transfer and leaving them not effectively insured.

In this context, College of Insurance designed this program for developing and updating the skills of the buyers of insurance from various industries.

Key Takeaways from the Program:

The program is design to empower the participants in the following areas:

- Revisiting the basics of Project Insurance policies such as CAR/ EAR
- Understanding the coverages and terms offered under Project policies
- Understanding the concept of Business Interruption in Project Insurances
- Understanding the role of Risk Management in Project Management
- Appreciating the issues and challenges in claims processing with case studies

Participant Profile:

This Program is designed for people working in insurance purchasing roles in various organizations, Project Financiers as well as consultants, Brokers involved in Project Management.
